📍 Uttarakhand Haridwar

Summary

Front-end developer with hands-on experience building responsive websites using HTML, CSS, and JavaScript. Comfortable working with JavaScript, version control systems like Git, and basic deployment workflows. Focused on writing clean, functional code and improving through real-world projects and team collaboration. Open to front-end to continue building production-ready applications.

EDUCATION

HEC Group of Institutions, Haridwar, Uttarakhand, India

date of birth - 23-june-2003

April-2022 - July-2025

- Bachelor of computer Application

WORK EXPERIENCE

Godrej interio

Computer Operator

Dec-2025 - Jun-2026

- Managed and maintained digital databases, ensuring 100% data accuracy and system integrity for daily inventory operations.

PROJECTS

Teck stack: HTML, CSS, JavaScript, Bootstrap

Feb 2025 - March 2025

E-Commerce Website | HTML ,CSS, Java-script

- Built a fully responsive e-commerce website with product listings, shopping cart functionality, and dynamic UI updates using JavaScript.
- Implemented clean and modern UI using CSS Flexbox and Grid.
- Added basic interactivity like add to cart, item removal, and total price calculation.
- Focused on user experience, performance, and responsive design.

Portfolio | HTML ,CSS, Java-Script

- A personal portfolio website showcasing my skills, projects, and experience. Built to reflect my style and professionalism while ensuring a user-friendly experience.
- Technologies Used: [e.g., HTML, CSS, JavaScript, etc.]
- Role: Designed and developed the entire site, including the layout, content structure, and responsive design.

IT-Company-Clone | HTML, CSS, JavaScript, Bootstrap, ChatGPT

- Built a responsive modern website clone with animations and interactive UI, achieving a 90%+ responsiveness score across major devices and browsers.
- Collaborated with ChatGPT to optimize structure, layout, and responsiveness, reducing initial development time by approximately 15% through AI-assisted problem-solving.
